

2005 Syrah, Second Sin, Santa Barbara County

The Cold Heaven philosophy is to create balanced and elegant wines with ample structure and natural acidity using both red and white varieties from some of California's best cool climate vineyards. Minimalist handling, gentle cellar techniques, and clonal focus are critical in creating the very special wines of Cold Heaven Cellars.

There is little we can say about this wine except that we love it. Again, a blend of three separate vineyard sites, but we replaced the Bien Nacido with fruit from the Los Alamos area of Santa Barbara County. We like to call this the pinot noir of syrahs because it's so elegant and pure. Don't be fooled by the description; there is plenty of chocolate, caramel, and smoky aromas to let you know you're having one of California's unique syrahs.

MSRP \$35
